State of Sonora Well Prepared To Fight Carranza.

Washington, April 27 .- Two federal troop trains have been captured by revolutionists between Iguala and Cuernavaca, within fifty miles of Mexico City, according to advices re-ceived today by General Salvador Alvarado, representative of the Sonora revolution here. The troops were of the command of Gen. Peblo Gonzales.

The states of Guanajuata and Moreles close to Mexico City, have definitely joined the revolution Alvarado's advices declared, and the loss of the state of Guerrero is admitted by the Carranistas. Gen. Cipriano Janes and 500 troops have revolted and are in control of Cuanajuata, Alvarado declared.

Gen. Maycott, military leader for Guerrero. Moreles and part of Michoacan, has been ordered to Mexico City, his troops having joined the revolt.

Washington, April 27 .-- A crisis in the Mexican situation is at hand, according to reports reaching here today, and there is indication that a final struggle is impending which will determine the strength of the revolutionary movement against President Carranza.

Vague dispatches of fighting in the vicinity of Mexico City and official reports that a great tattle is impending for possession of the port of Mazatlan on the west coast of Mexico, brought the opinion here that within a few days there will be a turning point in the revolutionary movement which wil lead to further success or wil more firmly establish Capture of Mier and Guarrero, re ported to General Salvador Alvadro, representative of the Souora revoa little over 300 the vote at 1 o'clock lutionists here, and confirmation of Maycott have joined the revolution the state of Morelos.

Revolting against a faculty order depriving the men and women students of the privilege of appearing in couples on the campus, walking together between recitation halls or to chapel, and of taking "hikes," student of Wilberforce University, refused to attend classes Tuesday morning.

The trouble has been brewing since last Wednesday when the faculty order became effective, and culminated Tuesday morning. During the night, doors to the recitation hails, Shorter and Bundy Hall, were wired shut and barbed wire stretched about the buildings.

At seven thirty Tuesday morning mobs of striking students began gathering on the lawns, refusing to go to their class rooms, and surrounding teachers or any students who attempted to approach the recitation and study halls. Indignation of the students seem-

ed to center about Bishop Joshua H. Jones, chairman of the board of ustees, and his son, Gilbert Jones, can of the college.

"Too much Jones," appeared on big round placards which students wore on their coats.

Estimates Place Republican Vote at 200,000; Democratic 100,000.

NO DEMO'TIC CONTEST

Causes Considerable Interest.

Columbus, O., April 27 .- That at least 200,000 Ohio Republicans and about 100,000 Democrats of the Buckeye state are registering at the primary polls today their preference for the future president of the United States is the estimate voiced by political experts here. The big difference between the number of Republican and Democratic voters is attributed to the contest between the supporters of U.S. Senator Harding and Major General Wood to capture Ohio's 48 delegates to the Republican national convention and to the fact that Ohio delegates are a unit in their support of Governor Cox's presidential ambition. In only a few districts is there any contest among the Democrats for delegates to their national convention.

Clearing weather stimulated attendance at the polls in various parts of the state this morning.

Fight Over Delegates

The strongest fight between the Harding and Wood camps centers in the contest for delegates at large to the national convention, Most of the Wood men's strength is being placed behind former Attorney General Ed. Wood leaders claim that failure

of the Harding forces to obtain all of the 48 votes in the Ohio delegation will spell a victory for General Wood. Wood men go so far as to insist that should Wood win out in Ohio tday in the presidential preference vote, Senator Harding's political future is seriously jeopardized and that not only would he tail to be nominated for the presidency but would be in grave danger of losing out in a campaign for return to the senate.

Mr. Lodge said it was well known that at Paris there had been proposals to have the United States loan after planting a number of their bach where communists have suc tion of Germany. Reports that the question was to come up again at the league financial conference at Brussels, Mr. Lodge added, revived the danger to the United States.

Senator Hitchcock asserted that league members who did not participate in the war with Germany could have no voice in arranging the debts of the belligerents. Mr. Lodge replied that they could vote for amendment of the league to provide for some plan of pooling the war debt.

A WORLD REBUILT

By the Golden Rule not by the Rule of Gold

WHAT ARE the most precious elements in American Life?

Respect for the home? Jesus found women slaves; He made them companions. Down through the ages His Church has been the champion of women's rights and aspirations. Respect for the man who works? It was the Carpenter of Nazareth who gave labor its great charter. "You are sons of God," He said. In that sentence Democracy was born. Respect for property? A WORLD REBUILT

By the Golden Rule not by the Rule of Gold

WHAT ARE the most precious elements in American Life?

Respect for the home? Jesus found women slaves; He made them companions. Down through the ages His Church has been the champion of women's rights and aspirations. Respect for the man who works? It was the Carpenter of Nazareth who gave labor its great charter. "You are sons of God," He said. In that sentence Democracy was born. Respect for property? Modern business is credit; and credit is character. All that makes property safe in the world is bound up in the reverence for law that religion breeds.

Respect for education? Who gave America her colleges? They were founded by Christian ministers, almost all of them. On these great essentials must we build a better the Church's part in the huge task of Americanization,

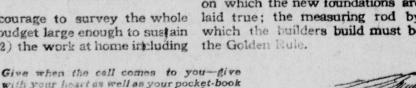

America, and a better world. And every one of them rests on the foundations of the Christian Church. Thirty denominations of that Church are uniting now in a simultaneous campaign.

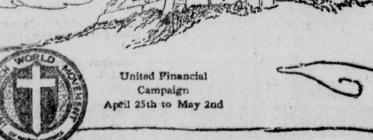

They are uniting because the task before the Church is too great for any one denomination; because there must be no duplication of effort; no waste.

They have had the courage to survey the whole laid true; the measuring rod by task, and to ask for a budget large enough to sustain which the builders build must be (1) the work abroad, (2) the work at home including the Golden Rule.

(3) the colleges and (4) hospitals supported by the Churches, (5) the religious training of the young, and to provide (6) a living wage for the Church's ministers.

The appeal is to every lover of America, to you whether you are inside the Church or out. The rebuilding of the world is a spiritual task. Faith must be the cornerstone on which the new foundations are

FACTS

Editorial in the Gazette Times, January 20, 1920 CHANCES OF STRIKING OIL. The big producers are being found by drillers in the Southwestern fields of the United States, but there is more certainty of "striking oil" in Pennsylvania, where the product commands the highest price and the wells last long. The country over, the driller's chances are approximately four to one in favor of getting oil; in Pennsylvania he has

approximately nine chances of success to one of a failure. This we learn from the Oil City Derrick's report of drill-ing operations during 1919. In the United States as a whole 28 462 wells were completed, of which 5,951 were dry, or non-productive; in Pennsylvania the completions totaled 5,178, of which only 573 brought total disappointment to the owners. The chief reason for the discrepancy is apparent. In the newer fields there is genuine wild-catting; the oil bearing acres of Pennsylvania are well defined. But the risk one runs in drilling an oil well is not wholly exposed by the figures quoted. It is not precise to say that there is a 9 to 1 chance of success in Pennsylvania, for if one fails his loss is virtually total as to that well. And so it is wherever one drills. But if one gets oil he may, at present prices, have the equivalent of a fortune in a comparatively small producer. It is an alluring hazard. That is what the unprecedented prices offered for crude are intended to make. Apparently they are proving effective, but the new production is not sufficient to balance the demand, which is growing at a prodigious rate. Therefore still higher prices may be expected. The prospective reward must balance the risk that is taken in any form of gambling and drilling for oil, wherever it is undertaken, is a Twice the Price of Texas Crude THIS IS NOT A WILD-CAT

Editorial in the Gazette Times, January 20, 1920 CHANCES OF STRIKING OIL. The big producers are being found by drillers in the Southwestern fields of the United States, but there is more certainty of "striking oil" in Pennsylvania, where the product commands the highest price and the wells last long. The country over, the driller's chances are approximately four to one in favor of getting oil; in Pennsylvania he has

are approximately four to one in favor of getting oil; in Pennsylvania he has approximately nine chances of success to one of a failure. This we learn from the Oil City Derrick's report of drilling operations during 1919.

In the United States as a whole 28 462 wells were completed, of which 5,951 were dry, or non-productive; in Pennsylvania the completions totaled 5,178, of which only 573 brought total disappointment to the owners. The chief of which only 573 brought total disappointment to the owners. The chief reason for the discrepancy is apparent. In the newer fields there is genuine wild-catting; the oil bearing acres of Pennsylvania are well defined. But the risk one runs in drilling an oil well is not wholly exposed by the figures quoted. It is not precise to say that there is a 9 to 1 chance of success in Pennsylvania, for if one fails his loss is virtually total as to that well. And so it is wherever one drills. But if one is virtually total as to that well. And so it is wherever one drills. But if one gets oil he may, at present prices, have the equivalent of a fortune in a comparatively small producer. It is an alluring hazard. That is what the unprecedented prices offered for crude are intended to make. Apparently they are proving effective, but the new production is not sufficient to balance the demand, which is growing at a prodigious rate. Therefore still higher prices may be expected. The prospective reward must balance the risk that is taken in any form of gambling and drilling for oil, wherever it is undertaken is a gamble. Twice the Price of Texas Crude THIS IS NOT A WILD-CAT PROPOSITION

WHO IS THE SUGAR "PROFITEER," AND WHY ISN'T HE

Twenty-five cent sugar—with a threat of fifty cent sugar WHY TRY TO HIDE on the horizon-means far more to the community than a watchful eye on the sugar-bowl. It means robbing the people of untold tons of most wholesome food that never even sees a sugar refinery. That wasted food is largely fruit, though we must not just now forget rhubarb. Sugar is the absolutely essential preservative needed to carry it beyond the short season when it By Using Creams, Lotions, can be eaten fresh. In many cases it is suite as imperatiely vneeded to make fresh fruit palatable, especially when cooked. Again, rhubarb intrudes itself. In fact, at the present moment housewives are refusing to buy rhubarb, a most valuable spring When You Can Remove tonic, because they cannot afford sugar at a "quarter" a pound to soften its acerbity.

Sugar itself is a food. To make it dear deprives the poor and even the moderately well-off of one of their most indispensable food ingredients for the maintenance of good health. Children especially crave it, and if denied it in the salutary "sweets" of the table are apt to seek and find it in more deleterious forms.

Still, bad as it is, the American people would face this evil and bear its ill-effects with stoicism, if they were once convinced that it was the blameless effect of natural causes beyond the and wnite Ointment and Soap. The power of legislation, government control or private fair-play to creamy ointment is applied to the prevent. We have paid double prices for necessities of life with no greater protest than a demand that their cause be ble than cold creams or lotions. sternly probed and that we be reasonably convinced that no injustice is being done us.

But it is most difficult to take this philosophic view of the soaring prices of sugar. Before the war granulated sugar sold at the rate of five and six pounds for a "quarter." Now it is a "quarter" for one pound—with a very real public apprehension that it may go to fifty cents. Here is an increase of five to six that it may go to fifty cents. Here is an increase of five to six your locality, send 50c for both and times in the price of an article of common consumption. In the manufacturers will mail to you what other necessity of life is this rate of increase equaled?

Surely it is up to somebody to do some explaining. The people are reasonable. They do not ask that the refiners make sugar out of hay, any more than they expect grapes of thorns mail this advertisement to BLACK or figs of thistles. They know that the cost of the raw material and WHITE, Box #13, Memphis must control the price of the finished product. But an augmenta- Tenn. tion of 600 per cent-if the mathematical "sharps" will let us put it that way-is an unparalleled sky-rocketing of the price of an essential food which at least demands some very clear and very convincing explanation.

The authorities have set out to get this explanation. They have put men under arrest for "profiteering" in sugar, and the overnment has summoned a number of sugar refiners to Washington to tell the Department of Justice where they "get that stuff" which leads to fancy price cards on one of the basic foods of the people. The public ought in this way to get the facts. If there is reason beneath all this inflation of the sugar item in the household budget, well and good. But if there is and has been "profiteering," then some one should go to jail and work out the heavy losses which we will all suffer in spoiled fruit, denuded dinner-tables, lost dishes and an inexcusable boost all cound to the cost of living.

OH MY STOMACH

"I had stomach trouble so badly that nothing I ate would digest as it should," said Sadie E. Hamilton Portland, Me., as she began a remarkable story of the relief she has secured from Argo-Phospirte, the new reconstructive

stomach tonic and system purifier.

"Everything that I ate would he in my stomach like a lump," she explained. "Gas would form and I would suffer distracts all the time of distress all the time. I got so I could hardly keep anything down. Trying to get relief, I had my stomach pumped out, but even this did not help me as I continued just as bad.

"I kept hearing so much about Argophate that I thought maybe it might help me and I decided to try it. I have taken 2 bottles and to my surprise I am already feeling fine. I can eat anything and I am not troubled at all.

"I m completely rid of my old stomch trouble that I had for three years. I have not felt so well for years and I am certainly glad to endorse Argo-Phosphate because I want others to be helped by this wonderful medicine.'

"The spirit of wanting to help others is what makes suffering men and women give these splendid public endorsements of Argo-Phosphate" said a local druggist. Dispensed by Sohn's

OH MY STOMACH

I had stomach trouble so badly that nothing I ate would digest as it should," said Sadie E. Hamilton Portand, Me., as she began a remarkable story of the relief she has secured from Argo-Phosphte, the new reconstructive

stomach tonic and system purifier. "Everything that I ate would he in ny stomach like a lump," she explained. "Gas would form and I would suffer distress all the time. I got so I could hardly keep anything down. Trying to get relief, I had my stomach pumped out, but even this did not help me as I continued just as bad.

"I kept hearing so much about Argophate that I thought maybe it might nelp me and I decided to try it. I have taken 2 bottles and to my surprise I am already feeling fine. I can anything and I am not troubled at all.

"I m completely rid of my old stomch trouble that I had for three years. I have not felt so well for years and I am certainly glad to endorse Argo-Phosphate because I want others to be helped by this wonderful medicine.

"The spirit of wanting to help others is what makes suffering men and women give these splendid public endorsements of Argo-Phosphate" said a local druggist. Dispensed by Sohn's

Jiggs is an Old Sport Now

"Jiggs, you darlin', you old dear, where did you get the wonderful suit? Why you look like a youngster, why I never saw you look so stylish, why you ook like you did when you were courtin' me down on Hogan's alley. It certainly shows your splendid lines." "Some class to it, ain't there Maggie. Say, won't the bunch down to Dugan's look me over? Bet Dugan will want to know where I got this suit right away."

"You insect, you, if you dare to go near Dugan's again, I'll break every vase in the house on your head."

"Now Maggie darlin', don't get one of them throwin' spells of yours while I got on this suit."

"Alright for now, but you put that suit on tonight when we go to the theater."

"Where did you get that suit anyway?"

"Why down to

Higgins & Phillips

the store where nearly all of the better dressed men go to. They make you a suit right down to your very own measures, and they sure brought out my fine shape, didn't they Maggie?"

JIGGS TAKES THE MOST PROF-ITABLE WALK THAT HE CAN REMEMBER OF EVER TAKING IN HIS LIFE.

"You know! Maggie that today I found the best place on earth. I heard some music and it was great. One of these phonographs was doin' it."

"You insect, do you insinuate that you do not like my singing."

"NO. NO. Maggie darlin' don't get the wrong idea. This phonograph has the sweetest tone you ever heard. Oh. Maggie I can't say enough about The AEOLIAN-VOCALION, and then they had the PATHE too, its just as good. And by the way Maggie, while I was listenin' to that swell music, I saw a man looking at some rugs, and there was one there just like the one we bought last week for our parlor, only they didn't ask as much for it by \$5.00 as we paid for ours. Wish we had looked at their rugs before we bought ours. They must be more reasonable in their prices."

"Well Jiggs, why wouldn't that be a good place for us to go for that new Linoleum for our kitchen. Maybe we could find some new draperies there too."

"Well, by golly Maggie, it pays to keep your eyes open in these days, and believe me we'll trade there."

"Where is this place you went, Jiggs?"

"Why I got into a store opposite the court house, they call

Galloway & Cherry

Maggie is a grouch alright, but she's a bird on society.

"Jiggs, you've got the biggest feet in town, they look like two gun-boats, and you wear the bummest looking shoes of any of the men in society."

"That's alright Maggie, they DO look like thunder, but believe me they will look O. K. from now on."

"Why Jiggs?" What's the big idea?" "Well a fellow told me where I could get enough shoe to cover them and not spend a fortune doin' it. Said that if I was to go up to the

that I could get a swell pair of the very latest things out, that wouldn't pinch my feet."

"You insect, to think that there has been a place all the time, and right here in town, and you wouldn't know it." "Well believe me you better hike up there and get a pair, and while you're at it look and see if they keep the kind us society ladies wear, and if they do, me for there too.

Jiggs Makes a Huge **Discovery**

Maggie. Oh. Maggie, Columbus hasn't got a thing on me, I'm a discoverer too."

"Now what Jiggs, I never knew you to have an original idea yet."

"Well, believe me, I found a brand new store in Xenia and its a dandy too. Swellest new front, big fine lookin' windows, and fixed up inside like a million dollars. Everything painted up to match everything else. Finest lookin' floors and curtains an' things in there

"Jiggs, you must have got in the wrong place. Bet you got into somebodys home and didn't know it."

"No, Maggie. This was a regular store, just like the swell ones you see in the big cities. They keep all the latest wall paper, eations of all kinds, paints, stains, varnishes, an' all the things in that line. Then they keep all kinds of electrical goods, like vacuum cleaners, washing machines, electric irons and most everything has electricity to it. Oh, its a real store, Maggie, big one too."

"Funny I never saw anything of it. What's the name of it and

Jiggs and Maggie Discuss Their Shopping

Jiggs is an Old Sport Now

"Jiggs, you darlin', you old dear, where did you get the wonderful suit? Why you look like a youngster, why I never saw you look so stylish, why you ook like you did when you were courtin' me down on Hogan's alley. It certainly shows your splendid lines." "Some class to it, ain't there Maggie. Say, won't the bunch down to Dugan's look me over? Bet Dugan will want to know where I got this suit right away."

"You insect, you, if you dare to go near Dugan's again, I'll break every vase in the house on your head."

"Now Maggie darlin', don't get one of them throwin' spells of yours while I got on this suit."

"Alright for now, but you put that suit on tonight when we go to the theater."

"Where did you get that suit anyway?"

"Why down to

Higgins & Phillips

the store where nearly all of the better dressed men go to. They make you a suit right down to your very own measures, and they sure brought out my fine shape, didn't they Maggie?"

JIGGS TAKES THE MOST PROF-ITABLE WALK THAT HE CAN REMEMBER OF EVER TAKING IN HIS LIFE.

"You know! Maggie that today I found the best place on earth. I heard some music and it was great. One of these phonographs was doin' it."

"You insect, do you insinuate that you do not like my singing."

"NO. NO. Maggie darlin' don't get the wrong idea. This phonograph has the sweetest tone you ever heard. Oh. Maggie I can't say enough about The AEOLIAN-VOCALION, and then they had the PATHE too, its just as good. And by the way Maggie, while I was listenin' to that swell music, I saw a man looking at some rugs, and there was one there just like the one we bought last week for our parlor, only they didn't ask as much for it by \$5.00 as we paid for ours. Wish we had looked at their rugs be fore we bought ours. They must be more reasonable in their prices.'

"Well Jiggs, why wouldn't that be a good place for us to go for that new Linoleum for our kitchen. Maybe we could find some new draperies there too.'

"Well, by golly Maggie, it pays to keep your eyes open in these days, and believe me we'll trade there."

'Where is this place you went, Jiggs?"

"Why I got into a store opposite the court house, they call

Galloway & Cherry

Maggie is a grouch alright, but she's a bird on society.

"Jiggs, you've got the biggest feet in town, they look like two gun-boats, and you wear the bummest looking shoes of any of the men in society."

That's alright Maggie, they DO look like thunder, but believe me they will look O. K. from now on."

"Why Jiggs?" What's the big idea?" "Well a fellow told me where I could get enough shoe to cover them and not spend a fortune doin' it. Said that if,

'Well, believe me, I found a brand new store in Xenia and its a dandy too. Swellest new front, big fine lookin' windows, and fixed up inside like a million dollars. Everything painted up to match everything else. Finest lookin' floors and curtains an' things in there

"Jiggs, you must have got in the wrong place. Bet you got into somebodys home and didn't know it."

"No, Maggie. This was a regular store, just like the swell ones you see in the big cities. They keep all the latest wall paper, decorations of all kinds, paints, stains, varnishes, an' all the things in that line. Then they keep all kinds of electrical goods, like vacuum cleaners, washing machines, electric irons and most everything has electricity to it. Oh, its a real store, Maggie, big one too."

"Jiggs. You're a piker, that's what you are, a piker. During all these years that we've had electricity in the house, all we have had is light. LIGHT, what's light? Light is the commonest thing in the world. Candles and lightening bugs give light. What I want is CONVENIENCES.

"Now Jiggs, listen here. I break my back every week washing for you, rubbing your dirty socks and shirts on the board. That's old time stuff Jiggs. Why don't you go up to the

Hornick Electric Co.

—and buy me an APEX WASHING MACHINE and an APEX IRONING MACHINE, the laundry twins. Then if you have any money left, you might get me either a HOT-POINT or UNIVERSAL Electric Iron. Then Jiggs, an electric curling iron wouldn't go bad. You know Jiggs, if you would only exhibit a little horse sense once in a while I would love you ever so much."

"Alright Maggie, I'll get you every one of those things if you will let me go down to Dugans' tonight.

Be Better Looking-Take Olive Tablets

VICK'S VAPORUBE

To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days, you must keep your body free from poisonous wastes. Dr. Edwards' Olive Tablets (a vegetable compound mixed with olive oil) act on the liver and bowels like calome —yet have no dangerous after effect.

Take one nightly and note results.

They start the bile and overcome constipation. That's why millions of boxes are sold annually. 10c and 25c

Sickly Children

Gain Strength Rapidly on Vinol

Vinol is successful because it is a non-secret remedy which contains Beef and Cod Liver Peptones, Iron and Manganese Peptonates and Hypophosphites but no oil—the very elements needed to build up strength and robustness. Children love to take it.

The Wonderful Efficiency of Vinol is proven by these letters @ Aiken, S. C.—"My little girl five years of age had been delicate all her life. She was weak, run-down, no appetite, and she could not keep still a minute. We were very much worried about her. Our druggist, who is a doctor, said Vinol was the best tonic he knew for her. We tried it and you ought to see how she has improved by its use."—MRS. LEONARD W. GEORGE LEWIS.

Belvidere, Ill.—"My little girl tweive years old had Whooping Cough and Scarlet Fever one right after the other and she was so weak and rundown that she had fainting spells and headaches. My druggist recommended Vinol and the result was that her health and strength were built up very quickly by its use."—Mrs. John

For all run-down, nervous, anaemic conditions, there is no remedy like Vinol. Your money will be returned if Vinol fails —

STUDEBAKER Howto Keep Off the Waiting List

Automobiles are no longer "seasonable"-touring cars sell as readily in frosty February as they do in balmy June. Due to the uninterruped demand for Studebaker cars, dealers have had no opportunity to accumulate a reserve stock of cars for spring delivery.

There's bound to be a big list of buyers for all good cars after the first warm days of spring are here. Many are going to be disappointed—and some may have to wait 'til late summer for delivery.

But—if you place your order now for a Series 20 Studebaker, you will have your car when you
